

Reasons for Disenrollment

The following disenrollment reasons should be investigated further to determine if accurate termination code was used.

Some descriptions listed below provide additional instructions in bold. The data script only identified children that did not continue in care within the fiscal year. Coalition should amend Tab E as needed to accurately reflect total children disenrolled.

- Child care setting provided too much stimulation for the child.
- Physical limitations of child care provider
- Child care setting not challenging enough for child
- Provider no longer receiving SR or VPK funds due to noncompliance or low performance
- Child care provider dismisses child due to child's behavior
- Child care provider does not meet parent's or guardian's expectations.
- Child has a duplicate record. **The duplicate record should be deleted from table.**
- Provider remains open, but no longer provides VPK or SR services.
- There is a temporary break in client services. There is documentation that the client will resume services within a specified timeframe. **If child resumed care after the end of the fiscal year this record should be deleted from the table.**
- Child was determined eligible for services but never enrolled with a child care provider.
- Parent/guardian withdrew child from the program.
- Provider dropped child from the provider's program.
- Client has a temporary break in service due to maternity or medical leave. **If child resumed care after the end of the fiscal year this record should be deleted from the table.**
- Child is no longer residing with the client who completed the initial application due to court-ordered visitation. May be a temporary break in service. **If child resumed care after the end of the fiscal year this record should be deleted from the table.**
- Transfer from one SR funding source to another (i.e., BG3 to BG8).
- Client moved out of the county in which funding is currently provided. **If child is still in care within the coalition service area this record should be deleted from the table.**
- Child is no longer residing with the guardian who completed the initial application. New paperwork must be completed by new guardian. **If child resumed care after the end of the fiscal year this record should be deleted from the table.**
- Child was enrolled in a program that changed provider types. Only used if new provider ID is assigned in EFS.
- Child care provider has closed for economic or other business reasons.
- The program where the child was receiving services changed ownership. The new owner has a new provider record.

- Provider dismissed child for noncompliance with the provider's attendance policy.
- Transfer to another provider record (even if the second record is owned by the same provider).
- Custodian is involved in seasonal work (such as migrant or school district employees) and the child's enrollment is temporarily suspended while custodian is not working. **If child resumed care after the end of the fiscal year this record should be deleted from the table.**
