*Frog Street Pre-K Summer School* is a comprehensive program that integrates instruction across developmental domains and early learning disciplines in English and/or Spanish. The program is engaging for both teachers and children, and is easy to implement. The cornerstones of the program are:

- an extensive integration of theme, disciplines, and domains.
- special attention to social-emotional development.
- many levels and support of differentiated instruction.
- alignment with scientifically-based research.
- careful attention to sequence of instruction.

**Integration of Instruction**

The program is theme-based. Frog Street Press will provide pacing charts for 300 hour programs. Each day begins with a Greeting Circle in which the focus is building a sense of community. This “community building” opening to the day is followed by a Morning Message where children are actively involved in the practice of early literacy skills, including vocabulary, letter knowledge, phonological awareness skills and concepts of print.

Greeting Circle is followed by a Moving and Learning activity where children sing, dance, or play games that relate to program theme and lesson skills.

Two suggested Read Aloud activities each day foster children’s oral language as children are actively involved in thoughtful discussions and immersed in robust vocabulary. The program’s theme-related books represent both fiction and non-fiction, varied genres (narrative, prose, predictable), varied art styles and photography and include traditional and new pieces of literature. Additional libraries for literacy, math, science and social skills also integrate instruction with the program themes and skill continuums. The program includes 16 literature titles. The program also includes a wealth of integrated listening stories, participation stories, and magnetic story folders with props which enable children to re-enact the stories.

Literacy and math lessons are offered daily. Lessons are short, theme-related and filled with hands-on applications and meaningful context. Lessons spiral so that each time children return to a lesson concept or skill, they are able to expand their understanding.

**Differentiated Instruction**

Daily lessons include activities that address each of the eight intelligences, scaffolding, English Language Learner adaptations, and Special Needs adaptations. *Frog Street Pre-K Summer School* is dedicated to the concept that all children can learn when instruction stimulates curiosity, nurtures the child’s interest, is delivered with joy and is tailored to challenge each child to the edge of his or her competency.

Disclaimer: Information on this page is provided by the publisher and is based on the publisher’s submission for the VPK Curriculum Approval Process. Other versions of the curriculum may exist, but the submission (packaged curriculum materials AND professional development) outlined here is the only version approved for use by VPK providers on probation who choose the curriculum option on the improvement plan.

## Features and Benefits

In summary, these are the key features and benefits of *Frog Street Pre-K Summer School*:

- Balances intentional instruction and child-centered learning.
- Provides comprehensive, integrated instruction in all domains.
- Offers a strong daily routine that develops key social skills and emotional control.
- Values individual differences.
- Empowers children with choices in self-directed activities.
- Honors the power of a strong teacher-child interaction to develop rich oral language and a robust vocabulary.
- Provides a systematic and sequential continuum for building skills and concepts.
- Uses research-based principles of learning as the cornerstone of instruction.
- Embraces the joy of learning each day!

The materials are packaged in a plastic bin for easy storage:

**REQUIRED Professional Development**

*Frog Street Pre-K Summer School* Implementation Training will be offered in regional settings in a one half-day time frame. The model includes becoming familiar with the components, lesson format, model lessons, assessment, and meeting individual needs. In addition, the later part of the training provides the participants opportunities to apply new knowledge to their specific learning environments through group application activities. This training will be provided at no charge to providers who purchase *Frog Street Pre-K Summer School*.

**OPTIONAL: Ongoing Professional Development**

Content specific training is also available in a customized format to best meet the needs of the provider. Focus areas will include the five domains of the Florida Early Learning and Developmental Standards for Four-Year-Olds. A needs survey will determine the specific training.

In addition, an Administrator Observation Form to use for classroom observations of the fidelity of instruction of *Frog Street Pre-K Summer School* to support high quality, consistent instruction will be shared.

Web-based seminars, including lesson model videos will focus on specific needs identified by the coalition or provider.
