

VPK Progress Monitoring Program Pilot Year 2, 2021-2022 Email Update

Update #2: August 5, 2021

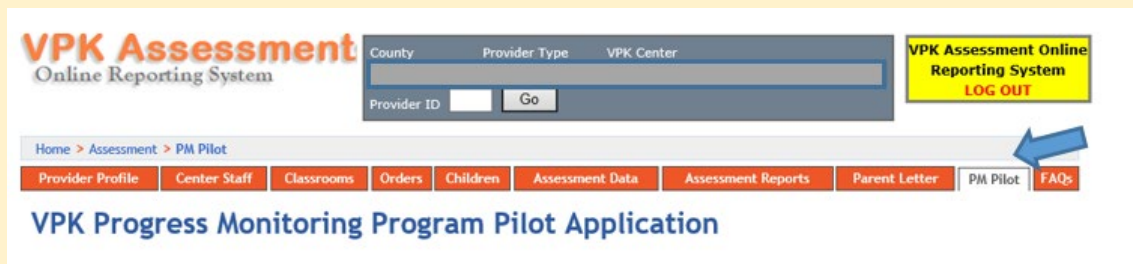

Dear VPK Progress Monitoring Pilot Providers

Thank you for your participation in the Year 1 Pilot. We have received feedback from many providers regarding the usefulness of the Star Early Literacy Assessment data to support instruction for children.

As the new school year begins, this is reminder that provider participation in the evaluation of the two-year VPK Progress Monitoring Program Pilot conducted by the Florida Center for Reading Research (FCRR) will continue in pilot Year 2, 2021-2022.

When providers completed the application to participate in the two-year VPK Progress Monitoring Program Pilot, one of the acknowledged assurances was: "I understand that I will be required to cooperate with research activities as a part of the pilot evaluation conducted by the Florida Center for Reading Research".

You may view your application in Bright Beginnings at <https://brightbeginningsfl.org/login.aspx> under the "PM Pilot" tab as shown below:

Your cooperation with the research activities as a part of the pilot evaluation is important to the project's purpose to establish consistency in assessments between VPK and Kindergarten and provide a more comprehensive overview of the learning and growth continuum during critical early learning years.

Thank you,

The VPK Team
