

Mathematical Thinking for Early Learners Online Course

New course helps VPK professionals teach early math knowledge

At an early age, children develop the ability to explore mathematical concepts. To assist prekindergarten administrators, directors and instructors incorporate these concepts in the classroom, the Office of Early Learning has developed a new, self-paced online course titled [Mathematical Thinking for Early Learners](#). The course costs \$10 and focuses primarily on a skills sequence that teaches early learners mathematical skills vital for their future success. Continuing Educational Units are available upon successful completion.

Early Learning Performance Funding Pilot Project

Project approved to continue for 2015-16 fiscal year

The [Early Learning Performance Funding Pilot Project](#) presents eligible, selected child care providers and their instructors the opportunity to earn additional compensation for improving school readiness program outcomes. In its previous year, the project provided 462 child care providers with checks for participating in the first year.
