I. ADMINISTRATIVE – SCHOOL READINESS (SR)

97BBA - SR Administration

Cost Allocation Considerations

- A. Allocate salaries and benefits in accordance with Personnel Activity Reports (PARs) allocation (direct charge when possible; allocate shared activities based on percentage of direct staff hours per PAR).
- B. Direct charge, allocate in accordance with an approved cost allocation plan, or other costs if the allocated cost is appropriate to the OCA to which the cost is being charged. See DEL Cost Allocation Plan Guidance for further instructions.

A cost is allocable to a particular OCA if the costs of goods or services involved are chargeable or assignable to such OCA in accordance with relative benefits received. For example, a staff member may use a telephone to provide both administrative and eligibility services for the coalition. The employee's time working in these areas of responsibility (administration and eligibility services) will determine the allocation of the cost of this equipment.

Additional Explanation - Specific examples of expenditures that are NOT to be charged to 97FIR

As stated in the Administration for Children and Families' Policy Interpretation Question Memorandum, Log No. [CCDF-ACF-PIQ-2012-01](#), DEL has some flexibility in determining appropriate reporting of expenditures related to program integrity. DEL has determined that expenditures related

to the following selected program integrity efforts are to be classified as non-direct expenditures:

- A. Selected eligibility determination/redetermination expenditures to be charged to [97BDE](#):
 - Interviews during which the identification of income information prompts an eligibility specialist to ask additional questions (i.e., review of social security benefits indicates that other family members receive additional social security benefits, etc.). Notification of a change in client circumstances resulting in an additional review.
 - Conducting inquiries related to documentation on file.
 - Conducting provider or client follow-up resulting from errors identified by Data Edit Reports.
- B. Selected review and supervision of child care placements expenditures to be charged to [97BBD](#):
 - Inspection, reviews, and supervision of child care placement necessitated by an indication (from a child care provider or attendance documentation) of less than full-time care utilization; or a provider consistently submits attendance with 100 percent attendance and the coalition visits the provider to review the child care placement.

 - Generate edit reports such as SR Dual Enrollment, Total Family Income Exceeds 85 percent of the State Median Income (SMI), and Private Payment Rate to ensure coalitions are spending funds appropriately.
- D. Provider payment processing, including staff time to process provider files to make payments and data entry tasks to verify attendance data in EFSM to pay providers to be charged to [97BBD](#).

97Q00 - SR Quality

Cost Allocation Considerations

Coalitions should charge expenditures related to general business operations (occupancy – rent,

utilities, property insurance; phones, copiers, office supplies) in support of quality activities to the following OCAs: [97Q14](#) for CCR&R activities, [97QIN](#) for inclusion activities, [97INT](#) for infant and toddler activities, and 97Q00 for all other allowable quality activities.

- A. Coalitions shall allocate salaries and benefits in accordance with their PARs allocation (direct charge when possible; allocate shared activities based on percentage of direct staff hours per PAR).
- B. Coalitions shall direct charge or allocate in accordance with an approved cost allocation plan other costs if the allocated cost is appropriate to the OCA to which the coalition is charging the cost. See DEL Cost Allocation Plan Guidance for further instructions.

A cost is allocable to a particular OCA if the costs of goods or services involved are chargeable or assignable to such OCA in accordance with relative benefits received. For example, a staff member may use a telephone to provide both administrative and eligibility services for the coalition. The employee's time working in these areas of responsibility (administration and eligibility services) will determine the allocation of the cost of this equipment.

A coalition may allocate a cost between Infant/Toddler OCAs and other Quality OCAs based on specific child count data.
