Stopping a Star Early Literacy Test: Situations may arise in the classroom which interrupt a test (for example, a surprise fire drill). If this happens, the teacher or test monitor can stop the test, either pausing it so the student can return to it later or stopping it entirely so the student can start over on a new test. The test can be paused and resumed as many times as needed, but it can only be resumed within 8 calendar days of when it was originally started. Keep in mind that pausing and resuming a test is a nonstandard administration; use this option only when absolutely necessary.

---

Resuming an Interrupted Test: An unfinished test can be resumed if the test was interrupted in one of the following ways:
If the test was intentionally paused by the teacher or test monitor.
If the student lost connection to the server or accidentally closed the browser or app during the test.
